The Church is a Body

The Catholic Church isn't a building. Did you know that? The Church is actually the group of people who have been baptized into the Faith. All the different kinds of people in the Church work together, just like a person's body.

Think about the different parts of your body. What do your eyes do? What about your ears? Hands? Feet? Brain?

Now think about the Church. It has a pope, bishops and priests, teachers, doctors, musicians, mothers and fathers, and even children. What do each of these people do for the Church?

What is your job in the Church right now? What do you think it will be when you are grown up?
